

District Wheels UI foundation

A compact system for fast, reliable dispatch work. Brand energy comes from yellow; clarity comes from disciplined black, white, and spacing.

BRAND ANCHOR

#FFD200

District Wheels Yellow

Primary actions, active states, and selected records

STYLING APPROACH

CSS Modules + custom properties

No UI library

Why: familiar CSS, scoped styles, full control, and a small component set from the wireframes.

1

Fast to scan

Labels and values use a clear hierarchy.

2

Fast to copy

Primary actions are obvious and repeatable.

3

Safe to operate

Feedback uses words, not color alone.

--radius-md

8px

--focus-ring

3px #171717

--control-min

44px

--space-unit

8px

Rule: one yellow primary action per task area; secondary actions stay white with a dark border.

Five color tokens

Each swatch has one role. Yellow always carries dark text; white text on yellow is not permitted.

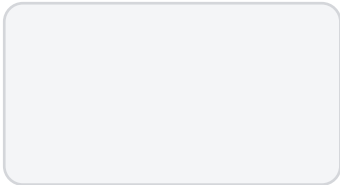

--color-primary
#FFD200
Primary actions, selected states

--color-text
#171717
Body text, icons, strong borders

--color-muted
#555B66
Secondary text and metadata

--color-bg
#F4F5F7
Page background

--color-surface
#FFFFFF
Cards, forms, dialogs

CONTRAST CHECKS - WCAG AA BODY TEXT TARGET: 4.5:1

[PASS]	#171717 on #FFFFFF	17.93:1
[PASS]	#171717 on #FFD200	12.35:1
[PASS]	#555B66 on #FFFFFF	6.83:1
[PASS]	#555B66 on #F4F5F7	6.26:1

USAGE RULE

DO **Dark text on yellow**

DO NOT **White text on yellow**

Errors include an icon and message,
never color alone.

Copy all details

Example: yellow draws attention while the surrounding dark surface provides structure.

Type scale and 8px rhythm

System sans-serif keeps buyer records familiar and readable. Spacing uses one base unit so every screen aligns.

TYPEFACE

Arial / Helvetica / system sans-serif

Screen heading - 28px / 700

Body text - 16px / 400

Labels and metadata - 14px / 600

Line height: 1.4 body, 1.15 headings

TYPE TOKENS

--font-size-heading 28px

--font-size-body 16px

--font-size-small 14px

--font-weight-regular 400

--font-weight-bold 700

SPACING SCALE - BASE UNIT: 8PX

4px

--space-0.5

micro

8px

--space-1

tight

16px

--space-2

control inset

24px

--space-3

section gap

32px

--space-4

desktop edge

Screen edge

16px phone

32px desktop

Atoms and states

Components come directly from the wireframes. Each has a default, focus, disabled, and feedback treatment where relevant.

BUTTON / ATOM

Props: variant, size, disabled, onClick, children **Appears:** all 4 screens **Minimum height:** 44px

INPUT / ATOM

BUYER NAME

PHONE

ZIP CODE

Error: check this value

Props: id, label, value, onChange, required, error
Appears: Add Buyer, Edit Buyer, location dialogs

FEEDBACK / ATOMS

● Copied

Tag props: text, tone
Appears: Directory, Details, Edit

Molecules and organisms

Repeated groups keep search, copy, selection, and navigation consistent across the four screens.

SEARCHBAR / MOLECULE

SEARCH

Buyer name or phone

Search

Props: query, onChange, onSubmit, loading

Appears: Buyer Directory

COPYFIELD / MOLECULE

RECIPIENT PHONE

0917 000 0000

Copy

Copied

Props: label, value, onCopy, status

Appears: Buyer Details

BUYERCARD / MOLECULE

Maria Santos

0917 000 0000

LBC

Open

Props: buyer, onOpen | Appears: Directory

SHIPPINGMETHODCONTROL / MOLECULE

Door to Door

Pickup

Props: value, onChange, allowPickup

Appears: Buyer Details

APPHEADER / ORGANISM

DISTRICT WHEELS

Directory

+ Add buyer

Props: activeRoute, onBack, onAdd

Appears: all 4 screens

LOCATIONDIALOG / ORGANISM

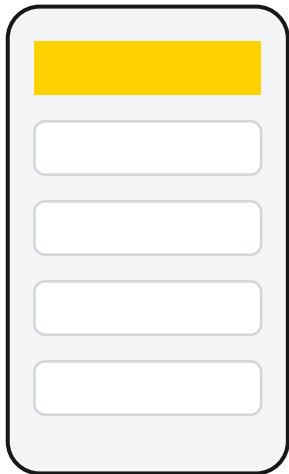

Props: type, initialValue, onSave, onCancel

Appears: Add Buyer and Edit Buyer

Layout rules before build

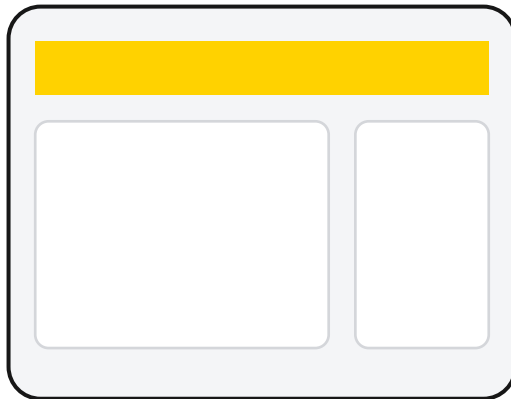

Mobile-first breakpoints preserve the task order. Accessibility is designed into the tokens and components.

RESPONSIVE PLAN

< 768px phone

One column

>= 1024px desktop

Main + sidebar Grid

768-1023px tablet: two-column forms remain; side panels move below the main task.

ACCESSIBILITY CHECKLIST

- ☒ All text/background pairs pass 4.5:1.
- ☒ Use header, nav, main, form, label, and button elements.
- ☒ Every input has a visible label linked by id/htmlFor.
- ☒ All actions work by keyboard in a logical Tab order.
- ☒ Focus ring is 3px dark and never removed.
- ☒ Controls are at least 44px high for touch.
- ☒ Copied, error, and default states include text or icons.
- ☒ Decorative images use empty alt; meaningful images get alt.
- ☒ At 375px, content stacks with no horizontal scroll.

BUILD HANDOFF

Tokens -> :root custom properties Components -> src/components Breakpoints -> min-width media queries
